II. SCOPE OF WORK

Through adequate security awareness training and cybercrime protection programs, Stakeholders/Industries can learn how to protect themselves from emerging cybercrime threats. Hackers are growing intelligent, mastering innovative and sophisticated ways of penetrating networks and IT systems. Security Awareness Training helps to raise awareness of cyber security threats, reduce the risks associated with cyber-attacks and embed a culture of security compliance in organization.

As part of the awareness campaign for the IPv6 adoption in the country we are planning for a training on Cyber Security course. Our target is to provide mass training to our India community. Video thus created will be uploaded on NIXI IPv6 web portal (<https://training.nixi.in>). The Indian community will view and consume training video and then can participate in NIXI online exam, based on its content.
